Prompt:

Describe a meal you invited others to have at your home or in a restaurant.

You should say:

Who you invited

Where you ate

What you ate

and explain how they felt about this meal

When you ask me to describe a **memorable** meal I invited others to have, the first that **came to mind** is my latest birthday dinner at a hot pot restaurant. Usually on my birthdays, I have some sort of **get-together** with my friends, whether it's a casual dinner party at my apartment or an exciting night out. But for my last birthday, I decided to take my friends out to hot pot—a truly unforgettable experience.

As for who I invited to my birthday dinner, I invited some of my friends from university and a few of my high school classmates I was still **in touch with**. Anyway, we ate an old authentic Chongqing hot pot restaurant in the farther out district of Hongkou, popular among hot pot aficionados. The interior itself wasn't fancy at all—I mean, there was hardly any interior décor, the walls were all bare, and the air conditioning occasionally stopped working. Yet, the atmosphere was bustling and full of the scent of spicy simmering broth.

Since this was, after all, Chongqing hot pot, there was no way we'd **turn down** their infamous spicy pot. We ordered a pot with two chambers—one with a mild broth and the other with a fiery soup base made of pepper oil sauce and chilies. Gradually, we put in pieces of meat, fish balls, giblets, vegetables, tofu, and noodles. When it came time to eat, I have to admit that I **chickened out** and only ate from the mild broth at first. With a little pushing and prodding, I tried some fried tofu skin from the spicy pot, but it felt like my tongue was on fire so I gave up.

To **wrap things up**, my friends definitely enjoyed the experience. Their spice tolerance is leagues above my own, and the whole time they were laughing at me guzzling glass after glass of water. Okay, so maybe I felt a little exposed, but it was still a really fun time.

范文解析：这是一篇非常典型的使用了 FBS (Fluency based strategy 流畅技巧) 的范文。整体是按照四个 helping question (辅助问题) 的顺序来叙述的，辅助问题就是指答题卡中的关于邀请别人去吃饭的四个问题。FBS

(Fluency based strategy 流畅技巧) 的基本结构为：

opening phrase + helping question, linking phrase + details, 如本文第一段 “When you ask me to describe a memorable meal I invited others to have, the first that came to mind is my latest birthday dinner at a hot pot restaurant.” 的这一句话, “When you ask me to describe...” 为 opening phrase, “a memorable meal I invited others to have” 则为 helping question 的部分, “the first that came to mind is...” 则是 linking phrase 的部分, 在这之后加入自己需要补充的内容即可。这样的口语回答方式减少了各位考生自己需要补充的内容, 因此有效的缩短了思考的时间, 从而增加了其回答问题的流利度。这个口语技巧适合回答各种类型的问题。这个技巧在启德 2019 雅思标准化教材的强化段第五课有详细的讲解和练习, 其他的口试技巧也会在标准化教材中有详细的讲解, 如果大家想学习更多关于雅思口语的内容, 欢迎大家来启德上课。
