

2019年10月26日柱状图（静态图）

The charts below show the proportion of male and female students in four countries appropriate for attending secondary or receiving higher education in 2000. Summarize the information by selecting and reporting the main features. Make comparisons where relevant.

The data in these two graphs show the percentage of men and women in high school or HE institutions across four continents in 2000.

Overall, Africa had lower levels of participation in both the secondary and higher education sectors than the other continents. However, across all four continents participation by gender was generally equal.

In terms of students attending secondary school, Europe saw the highest rates of participation with nearly 100% attendance by both males and females. In America four fifths of males attended high school against around

three-quarter of the females. This trend was reversed in Asia with more females than males attending high school.

When we focus on Higher Education, Europe had much higher participation rates than the other three continents. Well over half of the appropriate students were receiving higher education in Europe. This was balanced against around one third in the USA, dropping to around one quarter for Asian students and one fifth for African students.

范文解析：

这是一篇典型的静态柱状图(static bar chart)的小作文。作者在首段，用改写题目的方式来呈现图表所代表的数据的含义。改写的技巧是在写作考试中比较重要且经常会用到的技巧。其次在第二段作者对于两个图做出了一个综述，即总体的特点进行了总结。在第三第四段中，作者分别对于两个图中的数据进行了详细的对比和描述。在写小作文时，应注意不需要写总结段，也不用根据数据进行推测得出一些结果。柱状图中，写作的重点应该关注的是最大值，最小值，相似值和相等值等数据，如本篇范文，第二段“Participation by gender was generally equal across all four continents.”描述的就是按性别分的话四大洲的男性和女性的数值基本是一样的。静态柱状图(static bar chart)的写作方法会在启德 2019 雅思标准化教材的强化段(intermediate)第三课有详细地介绍。其他类型的小作文写作技巧也会在标准化教材中有详细的讲解，如果大家想学习更多关于雅思写作的内容，欢迎大家来启德上课。
