Speaking Independent Tasks 口语独立题➤ **Task 1****[Question]**

Some people believe that a library should be a quiet place where students study; Others believe that a library should be a place where students can meet friends and discuss about issues. What do you think a library should be and why?

[Response]

Yeah, absolutely the library should be a quiet place where people can study.

The first reason, and most importantly, is that university campuses are really noisy. The dorm is noisy, the cafeteria is noisy, outside is noisy, everything is noisy. The library is the one quiet place that we have to study. If I was at the library and there was a big group making lots of noise so I couldn't study, I would be pulling out my hair, I'd be so frustrated.

Secondly, if a group wants to get together and talk about their project, they

can do that anywhere. They don't need to do it at the library. For example, they could just go out to a park and hang out there and talk about their project. That'd be no problem.

Writing Independent Task 写作独立题

[Question]

Do you agree or disagree with the following statement?

Teachers should assign homework that students must do every day.

[Response]

Plenty of people think that regular homework assignments are a necessary part of a child's education. However, I strongly disagree. I do not believe that teachers should be forcing students to do homework every single day.

First off, it's just morally wrong for teachers to give homework all the time. As students, those teachers already control all of our time while we're at school, and by giving homework every day now, they also want to control all of our time while we're at home? My younger brother is only nine years old, but already he spends hours at home after school every day doing homework until it's dark outside. He should be outside playing so that he can develop physical skills and social skills, but instead he's wasting his youth at his desk doing pointless homework. Instead of assigning more homework, teachers should be

assigning less homework.

On top of that, teachers should only assign homework when it's valuable. Sometimes homework does serve a good purpose, but teachers should never assign homework every day for no good reason. I think one valuable purpose of homework is that it can help students to remember a lesson so that they can continue working on it during the next class. For example, if we learn a difficult rule about calculus on Friday, the teacher might give us homework over the weekend so that we remember the rule and continue working on it on Monday. However, if there's no good reason to assign homework, then it's just a waste of time.

In short, I believe it's a terrible idea to implement a rule where every teacher has to assign mandatory homework every day. Homework should be used rarely, and only for a good purpose.

这是作者的第一个观点，他觉得道德层面上老师一直布置作业是错误的。因为学生在学校的时候老师已经管理了他们的所有时间，不应该放学之后还强行安排学生的时间。作者用自己的弟弟举例，提到弟弟每天做作业做到外面天黑。但是弟弟不应该浪费青春在做无意义的作业，而是应该进行体育锻炼，发展社交技能。最后给出一个总结，老师应该少布置点作业。
